### 3. Substitutions

A. A course in statistics, as approved by the Chair of Undergraduate Studies, may be substituted for BIOL 243 in Core **1.F**.

B. ENSC 502 may be substituted for requirement **1.N**, and a further 6.00 units in electives and/or Plan requirements as approved by the Chair of Undergraduate Studies.

### 4. Notes

A. Students are strongly advised to complete all requirements for 100- and 200-level courses in their first and second year, paying special attention to prerequisites and corequisites needed in 300- and 400-level courses.

B. BIOL 206 is highly recommended as it is a prerequisite for upper-year Ecology courses (e.g., BIOL 300, 323).

C. A maximum of 6.00 units from courses offered by other Faculties and Schools may be counted toward the program and/or Plan requirements. This includes courses in BMED, COMM, GLPH, HSCI, LAW, NURS, and courses in the Faculty of Engineering and Applied Science.

### Environmental Toxicology Course Lists

The following lists contain courses offered through other Departments. In accordance with Academic Regulation **2.6** (Access to Classes), students do not have enrolment priority in all of these courses. Access to these courses may only be made available during the Open Enrolment period, and then only if space permits.
