

# AGING AND HEALTH

---

## General Information

The GDip, MSc and PhD programs in Aging and Health are tailored to meet the evolving needs of today's student. These programs are designed to be completed at a distance by working professionals. The programs are offered full-time, through a blended format of online learning and short onsite sessions. Participants will enjoy the professional networking and experiential opportunities of an onsite program with the benefits of distance learning flexibility.

## Program Objectives

Queen's University Graduate Diploma (GDip), Master of Science (MSc) and Doctorate (PhD) in Aging and Health provide participants with a comprehensive understanding of aging, with a focus on health and healthy living. Students will develop multi-disciplinary knowledge of individual aging processes, the effect of aging on social systems, and the policies needed to support healthy aging.

## Admission Eligibility

For the GDip or MSc programs, a minimum of B+ average from any four year undergraduate degree program or equivalent.

For admission to the PhD, applicants must have a master's degree in a related discipline with a minimum of B+ average.

For more information on admission requirements: : <https://rehab.queensu.ca/academic-programs/aghe/admission> (<https://queensu-ca-public.courseleaf.com/graduate-studies/programs-study/aging-health/>: <https://rehab.queensu.ca/academic-programs/aghe/admission/>)

## Financial Assistance

### The Graduate Diploma (GDip) and Master of Science (MSc)

The MSc and GDip students are not funding-eligible.

### Doctor of Philosophy (PhD)

PhD students are expected to apply to the external granting agencies for fellowships available to them. Thereafter they will be considered, without further application, for Queen's Fellowships. Graduate students may receive support from grants held by members of faculty, or from departmental funds. Teaching assistantships are available to suitably qualified candidates.
