

PATHOLOGY AND MOLECULAR MEDICINE - MASTER OF SCIENCE

Applicants are accepted under the general regulations of the School of Graduate Studies and Postdoctoral Affairs provided they have the appropriate background to pursue postgraduate training in pathology. The degree programs consist of course work, seminars, research, and thesis.

Qualified students can be approved to enter the combined BScH/MSc program, which gives students in the 4th year of undergraduate studies access to graduate level courses and an opportunity to obtain a graduate degree on an accelerated time course. Interested students must identify themselves and apply for this program in 3rd year. For more information contact the graduate program.
