

TRANSLATIONAL MEDICINE - MASTER OF SCIENCE

(duration: 24 months)

The Master of Science (MSc) in Translational Medicine requires, at minimum, the completion of 12 credit units, including three core courses in translational medicine (TMED 800, TMED 801 and TMED 802) and 3-credits in elective course(s) chosen from students' area of interest, and a thesis research project (TMED 899).

Students registered in the MSc in Translational Medicine with first-class standing (a minimum A- average, equivalent to 3.7 GPA or 80%), and who show exceptional promise in their research may be considered for promotion to the PhD in Translational Medicine, without completion of the MSc.
